

**The 2007 US Youth Soccer Region II Championships will be held June 22 - 27 in Des Moines, IA**

Each summer the United States Youth Soccer Association (US Youth Soccer) crowns a boys and girls national champion in each of its seven age divisions (Under 14, 15, 16, 17, 18 and 19).

The finals are a culmination of a year-long series of competitions at the state and regional levels. The US Youth Soccer National Championship Series provides approximately 129,000 players on 7,200 teams from US Youth Soccer's 55 State Associations the opportunity to showcase their soccer skills against the best competition in the nation.

The best soccer players from 13 state associations need the best referees from those state associations. This year Kentucky will be sending 15 referees to this championship.

The Kentucky Soccer Referee Association will choose referees based on their performances at our State Cup to represent all referees in Kentucky at this event.

If you are interested please check your application.

July 9 - 13	Boys Referee Clinic	Rockford, IL
-------------	---------------------	--------------

Kentucky will send referees to **ODP** in Rockford, Ill. to referee games and receive training during and after their matches. The camps are designed to provide high level competition and training for participating players. During this training and competition, players who are capable of performing at a higher level of play are identified for possible national team camp, pool, or team participation.

If you have the desire to improve as a referee this clinic is a great step in the process. We recommend Grade 8 and 7 attend this camp before attending the Midwest Regional Championships.

The Kentucky Soccer Referee Association will choose referees based on their performances at our State Cup to represent all referees in Kentucky at this event.

If interested please check your application.
